AMENDMENT AND RESPONSE

COMMISSIONER FOR PATENTS
Washington, D. C. 20231

Sir:

This paper is being submitted in response to the Notice of non-compliance issued July 10, 2003. There is attached hereto and officially filed a copy of the response previously filed and dated June 18, 2003. In the attached response, the former bracketed material has now been stricken through. Canceled claims 1-19 have now been number referred to with the indication that all are canceled.

It is noted that the examiner has complained that the listing of claims does not contain the text of all claims currently under consideration. That position is not understood. Claims 20-39 are under consideration (see the last office action). The full text of each of these claims is reproduced and was reproduced in the June 18 response. It is not understood what more the examiner wants.

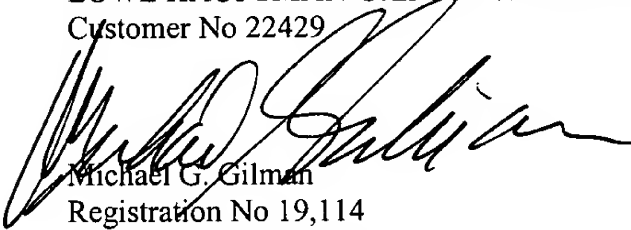

It is urged that the June 18 response was a *bona fide* attempt to respond to the outstanding action. Therefore, it is not believed that any further petition for extension of time nor any further
